BE IT ORDAINED by the Livingston Parish Council, Parish of Livingston, State of Louisiana: The Code of Ordinances of the Parish of Livingston, Louisiana, is hereby amending Section 13-54, “Streets” by deleting part (h) and adding the following:

Section 13-54 Streets

- (h) Subdivision Covenants shall not be written to discourage or disallow the connection to adjacent properties thru any existing lots or tracts when such connections can be made using good engineering practices.
- (i) The arrangement of new public streets in new subdivisions or developments shall make provisions for the continuation of existing streets in adjoining areas on each side of the development, as deemed necessary by the Parish to promote the development of a good street network. The street arrangement must also be such as to not intentionally cause any hardship to owners of adjoining property when they plat their own land and seek to provide convenient access. In general, provisions should be made for through streets at twenty-five hundred feet (2500’) intervals unless otherwise directed or approved by the Parish of Livingston. The existence of two (2) or more street entrances does not eliminate the need to provide connectivity to the properties adjacent to the proposed subdivision.
- (j) Any opportunities to connect to existing streets shall be identified and presented to the Livingston Parish Planning Commission during the preliminary meeting for the proposed land development.
- (k) Elevation of all roads must be equal to or above the ten (10) year storm based on drainage calculations and projected hydraulic grade lines.

BE IT ORDAINED that all ordinances or parts of ordinances in conflict herewith are hereby repealed. If any provision of this ordinance shall be held to be invalid, such invalidity shall not affect other provisions herein which can be given effect without the invalid provision and to this end the provisions of this ordinance are hereby declared to be severable.
