The chair addressed agenda item(s) 11a and b, "Florida Parishes Human Services Authority Appointment:

- a. Resignation of Cheryl Smith
- b. Appointment of Charlene Lilly (recommendation of FPHSA and resident of Council District 7)"

LPR NO. 21-319

MOTION was made by Tracy Girlinghouse and duly seconded by Randy Delatte to accept the resignation of Cheryl Smith from the Florida Parishes Human Services Authority and appoint Charlene Lilly (resident of Council District 7) to fill this vacancy that expires upon December 31, 2021; and whereupon at the expiration of this term will be eligible for reappointment to remain on the board, if elected, and serve a new three (3) year term that will expire on December 31, 2024.

Upon being submitted to a vote, the vote thereon was as follows:

Thereupon the chair declared that the Motion had carried and was adopted.

The chair addressed agenda item number 12, "Update on Hurricane Ida debris pickup – Randy Delatte".

The chair called upon Ms. Brandi Janes, Director of the Livingston Parish Office of Homeland Security and Emergency Preparedness.

Ms. Janes gave a report on the amount of debris that had been picked up in the Parish and the number of trucks that were out and about in the Parish-concentrating the majority of those trucks in Council Districts 8 and 9, being the hardest hit in the eastern and southeastern parts of the Parish. She reported on the water debris, and advised that FEMA had elected not to cover the Parish's water debris and the Parish would be turning everything over to NRCS, hoping to have a packet ready to send by the end of the following week. Funding would be to come from a congressional vote to have that money allocated to NRCS. Debris operations would cease on November 19th and begin again on December 6th, which will be the last pass and notify the public of this in varying ways.

Councilman Randy Delatte questioned Ms. Janes and wished to know what the plan was for of the pickup and described the many problems that are reported to him on a daily basis.

The chair interjected to comment on funding from the Recovery Act for government services, which can be a broad range of things. He suggested that if the NRCS chooses not to fund a certain area, there may be funds in the General Budget that could be allocated for that.

Councilman Delatte asked for a phone number that the general public could call with debris questions. Ms. Janes explained that she was working with the Parish's phone company to institute a phone bank in the Parish's EOC center. She described the calls that her office receives on a daily basis and explained that they take the caller's information, advising that her office is not handling the debris pickup, and email their information to Mark Harrell who is the lead of the debris pickup for the Parish.

Councilman Gerald McMorris wished to ask who set up the contract to do this work in the Parish?

Ms. Janes explained the procurement process. Councilman McMorris advised that he wanted a list of roads that were scheduled for debris pickup from the company who was handling the debris work in his Council district. He explained different areas in his district that still were not able to be driven upon because of the debris.

The chair allowed an open discussion about the contract and the many areas throughout the Parish that were still in need of help with debris pickup.

The chair asked if anyone had any further discussion? Having none, he moved to the next agenda item and thanked Ms. Janes for her participation.

The chair addressed agenda item number 13, "Adopt resolution to authorize a variance of Section 125-12(6), "Requirements for Minor Subdivisions", to waive the forty foot (40') servitude requirement and allow a twenty-five foot (25') servitude as there are existing structures within the

forty foot (40') servitude mandate for David and Beth Wolfe located in Council District 9", and called upon Councilman Shane Mack.

Councilman Mack advised that the property in question was family property and they wished to subdivide in order to give to their children. They are asking for a waiver for the width of the servitude. The servitude requirement is forty feet (40') and they are requesting twenty-five feet as the servitude is going to follow an existing road that goes back to the property and between the property line and the edge of the servitude, there are some existing structures and there is not enough room to get through that way, therefore they are requesting this waiver on a twenty-five (25') foot servitude. Councilman Mack stated that he wished to make the motion to grant the waiver and advised that he had assessed and inspected the site. Councilman Randy Delatte stated that he wished to make the second to that motion.

The chair asked Councilman Mack if the property owners were aware that the twenty-five (25') foot servitude might not let them obtain a mo-dad installed and asked if they had spoken with the health unit to make sure that the servitude is significant enough to allow them to install sewer. The chair was concerned that if the Council granted the waiver and then they would not be allowed to place the sewer plant in the back. Councilman Mack replied to the chair that he posed a very good question, and what will happened if that's the case and they are not able to build a new structure due the sewer servitude, they can go back after that and add a specific dedicated super servitude that takes the sewer exactly where the Department of Health and Hospitals group would like for it to go, so that would be of no concern.

LPR NO. 21-320

MOTION was made by Shane Mack and duly seconded by Randy Delatte to authorize a variance of Section 125-12(6), "Requirements for Minor Subdivisions", to waive the forty foot (40') servitude requirement and allow a twenty-five foot (25') servitude as there are existing structures within the forty foot (40') servitude mandate for David and Beth Wolfe located off of Wolfe Lane (to Louisiana Highway 190) in Council District 9.

Upon being submitted to a vote, the vote thereon was as follows:

Thereupon the chair declared that the Motion had carried and was adopted.

The chair addressed agenda item number 14, "Discussion and review of neighboring citizens' complaints and concerns regarding the infrastructure and the drainage of a proposed minor re-subdivision for Jonelle Thompson located on Henry White Road, being 10.650 acres, six (6) lots being divided, Section 17, T6S-R6E in Council District 9" and called upon Councilman Shane Mack.

Councilman Mack thanked the Council for the opportunity to place this item and the agenda and wished to state that the property owner was not asking for any waivers for this division of property. He explained that the reason that he placed this on the agenda was because many of the surrounding property owners are concerned about this development, reason being that the drainage is very poor in the area and the existing parish road that the development borders up to is very narrow. They also had concerns about the placement of sewer, the traffic and the drainage.

Councilman Mack explained the acreage of the property that is currently divided into three (3) lots, which will be between three (3) and four (4) acres each. The property owner wished to subdivide these lots in half making the new lots approximately 1.75 acre lots, which will add three (3) additional homes.

Councilman Mack further explained that he had communicated with the engineer/surveyor that is over the development and advised of the concern about the drainage. The engineer advised that they had calculated the impervious that would be placed on this property. After these calculations, it was the opinion of the engineering firm that this will minimally impact the surrounding drainage. Councilman Mack stated his concerns being that there was not a funded gravity drainage district and there was very, very, very minimal maintenance being performed on the existing drainage. He

discussed how a funded gravity drainage district could impact this area and drainage would be acceptable and all parties could be happy with the development.

Councilman Mack stated that he would like to open the floor, with the approval of the Council chairman, and let those that were in attendance voice their concerns. He also questioned if the Council members who have dealt with developments similar to this, might have some inspiring direction on how to move forward with this.

The chair called for Public input.

Public input: Drew Calderone, resident of Henry White Road on the southside of the proposed development
Brett Johnson, resident of Henry White Road
Sherri Resatar, resident of Henry White Road

The chair questioned Councilman Mack about Henry White Road. Councilman Mack explained at great length giving details about Henry White Road.

Public input: Tammy Resatar, resident

The chair allowed an open discussion.

Public input: Sherri Resatar

The chair allowed the open discussion to continue.

Public input: Eddie Aydell, engineer of Alvin Fairburn, answered questions from the chair

The open discussion continued.

Public input: Drew Calderone

Councilman Delatte suggested to Councilman Mack to set up a meeting with all of the parties involved.

Councilman Mack advised that he wished to schedule a meeting with Planning, the surrounding neighbors and the property owner.

After more open discussion, and further comment, it was determined that no action should be taken on this item.

The chair addressed agenda item number 15, “Adopt resolution to correct and establish that “Denham Road” should be listed in all parish records as “Denham Drive” being a parish maintained road located in Council District 4” and called upon Councilman John Wascom.

Councilman Wascom explained that he had been contacted by the residents who live on Denham Drive. They reported that a new street sign had been replaced after the original signage had been reported missing. The Livingston Parish Department of Public Works installed the new street sign as “Denham Road” according to the “Grant Bankston Road List”. The residents all testified that it has always been known as Denham Drive and had supporting evidence of their claim. He requested for the Council to adopt a resolution that would correctly identify the road as Denham Drive.

The chair questioned why the policy on changing a road name was not being followed.

The Council clerk requested to speak and to advise of the research that had been executed to determine the correct road name. There has been several times in the past that the Council have had to correct wording on the “Grant Bankston Road list” and upon favorable investigation, it was determined that the correct road name is Denham Drive and not Denham Road.

Councilman Randy Delatte stated that he agreed with everyone else, and he did not think that this was changing the road name, they were looking to put the correct sign up.

LPR NO. 21-321

MOTION was made by John Wascom and duly seconded by Randy Delatte to Adopt resolution to correct and establish that “Denham Road” should be listed in all parish records as “Denham Drive” being a parish maintained road located in Council District 4.

The chair addressed agenda item number 16, “Accept Tyler Lane into the Parish maintenance system under Type D Roads located in Council District 9” and called upon Councilman Shane Mack.

Councilman Mack stated that he wished to defer this item indefinitely until he received an acceptable petition with all of the required signatures. He would bring this item back to the Council at that time.

The chair addressed agenda item 17, “Adopt resolution to add the following roads for consideration to the Priority Road/Capital Outlay List:

Thereupon the chair declared that the Motion had carried and was adopted.

The chair addressed agenda item number 18, “Update on Zoning” and called upon Councilman Shane Mack.

Councilman Mack invited Mr. Eddie Aydell of Alvin Fairburn and Associates to report on the progress of the implementation of zoning in the Parish.

Mr. Aydell reported that they had met with Mr. Jeff Taylor, Assessor, and the group that manages his GIS system for the parish. They worked with them to make templates to incorporate the finished product into that GIS system. Mr. Aydell also advised that they were reviewing the zoning structure of the municipalities in the Parish to keep it as close to theirs and mimic, so that there wouldn’t be conflicting uses next to the boundary lines of municipalities. He explained the process of identifying rural, industrial and commercial corridors in the Parish and the scope of the work ahead.

The chair asked for a timeline. Mr. Aydell stated that he would have something for the Council to review in November.

Councilman Tracy Girlinghouse requested that an overlay of the Council districts be created.

The chair asked what the timeline would be for the public to have input and appeal how their property was zoned. Mr. Ayde11 shared that he had a couple of methods that he wished for the Council to review.

Councilman Mack questioned if the definition ordinance regarding classified and unclassified properties could be addressed in the draft that was coming in November. Mr. Ayde11 advised that they had recommendations to amend the definition ordinance.

Having no further comment, the chair moved to the next agenda item.

Thereupon the chair declared that the Motion had carried and was adopted.

The chair addressed agenda item number 20a, "Committee Reports: Master Plan Review Committee". The chair stated that Councilman Mack had addressed this matter in the previous agenda item and moved to the next agenda item.

The chair called upon Councilman Tracy Girlinghouse to address agenda item number 20b, "Committee Reports: Ordinance Committee".

Councilman Girlinghouse reported that the committee had met and went over a few things. The committee deferred the impact fee ordinance as they wished Councilman Mack to approach this, and it would be on the committee's next agenda. They received an update from Administration as to what they wished to be put in the proposed Load Limit ordinance and Councilman Girlinghouse requested to have more information. The committee also discussed the ordinance on parking on parish roads, coming to an impasse, and wished to defer it until a later date. The final ordinance that came up for discussion was the proposed amendment to the grass cutting ordinance and recommendation to introduce the ordinance and also an amendment to abandoned vehicles ordinance that will define the process of who to contact. The chair explained in great detail that these two (2) ordinances were brought before the Ordinance committee by the Compliance Department in Administration and why they needed amendments to the current ordinances.

The chair directed the Council clerk to read by title for introduction the following ordinance and set the public hearing. Notice of the public hearing and introduction of the ordinance with the title shall be published in the Official Parish Journal as mandated by the Home Rule Charter. The public hearing will be held on Thursday, November 18, 2021 at six o'clock (6:00) p.m. located in the Council chambers of the Governmental Building located at 20300 Government Boulevard, Livingston, Louisiana.

Having no other comment to report, the chair moved to the next agenda item.

The chair called upon Councilman Jeff Ard to present a report of agenda item number 20c, “Finance Committee”. Councilman Ard reported that the Finance committee had met, and Jennifer Meyers, Finance Director, had submitted the proposed budget that will be introduced on November 18th and will come up again on December 2nd for the Council’s approval. Ms. Meyers advised that the budget will be starting out with twelve million in the road overlay program, and could potentially increase, as all of the bonds on the road program have been paid off. Councilman Ard stated that the Parish’s tax income was still doing well, which probably comes from the great amount of people repairing their homes from the storm damage. He also advised that the Finance Director had sent everyone a check register for their review and all in all everything looked well for the Parish.

Councilman Randy Delatte questioned how changes to the budget could be made after the ordinance introduction on November 18th and when it comes up for adoption on December 2nd.

The chair stated that the ordinance will be introduced on November 18th and it must be adopted no later than December 2nd. He further stated that any amendments that would need to be made on December 2nd and voted upon December 2nd. The chair reiterated this was a mandate of the Home Rule Charter.

The chair asked if anyone had any other comment for the Finance committee report. Having none, he moved to the next agenda item.

The chair addressed agenda item 21, “District Attorney’s Report:”, and advised that because the meeting date was moved, there had been a conflict, and the Parish attorney could not attend.

The chair addressed agenda item number 22, “Councilmen’s comments:” and asked if any of the Council members wished to speak.

Councilman R.C. “Bubba” Harris wished to discuss the upcoming Trunk-or-Treat event that would be held on Saturday, October 30, 2021 at South Park in Denham Springs.

Councilman Jeff Ard stated that the state mask mandate had been lifted and questioned if the Council members could discuss possibly going back to meeting again together in the Council chambers.

The chair advised that he was going to make the announcement since the Governor of Louisiana had lifted the mask mandate. He advised that the Council members would be allowed to go ahead and meet in person for the November 4th regular meeting of the Council, as well as, the November 18th, December 2nd and December 16th regular meetings. He stated that there was no longer any justification to meet via Zoom and advised Councilman Ard that he as the chairman would definitely want the meetings to go back to public meetings in person. Councilman Tracy Girlinghouse concurred.

Councilman Randy Delatte wished to comment. He addressed the Councilmembers and stated that he wanted them to know that what he was about to say was with all sincerity in his heart. He acknowledged that the Council had a very good meeting that evening. He continued and stated that there were many leaders on the Council who all had a great amount of compassion for the people of Livingston Parish. He said that it started with the chairman, showing his leadership

ability, and called the names of the other Councilmembers and stated that they were all good leaders. Councilman Delatte further stated that every one of them took notice to actively listen to individuals in their communities that have that Councilman's ear. He asserted that each Council member comes to the floor to talk and debate for these people that they represent as hard as they can fight, but still be friends with each other that sit on the Council. He expressed the reason being, everyone is not going to agree or have the same point, but everyone does have one thing in common, and that is strong leadership abilities, along with strong compassion for the citizens of Livingston Parish. Councilman Delatte acknowledged that he had been in Parish government, this being his third term, and confessed that this Council was the best that he had ever served on. He continued, and stated that in the past, there had always been one or two people, and professed that all of the nine (9) members of this Parish Council serve strive to do the right things to represent the constituency of this Parish. The Council members thanked Councilman Delatte and agreed with his remarks.

Having no further business, a motion to adjourn was requested until the next regular meeting being scheduled on Thursday, November 4, 2021, at the hour of six o'clock (6:00) p.m. in Livingston, Louisiana.
